

Mental Health Collaboration Hub

Setting Ancillary Services

The Mental Health Collaboration Hub was designed primarily to help kids stuck in boarding situations get connected to appropriate mental health treatment and safe living environments.

The need for ancillary support services for the youth and caregivers while boarding, during transition, and after boarding are also critical. These services include all the following and more:

- Peer led support groups
- Family education
- Parent advocate
- Collaborative Intensive Bridging Services (CIBS)
- Child Intensive Behavioral Health Services (CIBHS)
- Family Support
- Family Resource Stabilization
- Respite
- Kinship care services
- Crisis nursery
- In-home family services
- Functional family therapy
- Multi-system therapy
- Systemic family therapy
- Legal Services
- School/Education
- Homebound instruction
- IEP accommodations
- Enrollment
- Distance Learning
- 504 plans
- Suspensions
- Use of seclusion and restraints
- Community/Living Resources
- Transportation
- Food assistance
- Housing
- Unemployment
- Collaborative Care Management (CoCM) (behavioral health support in primary care)
- Other services/resources
- LGBTQIA+
- Cultural Brokerage Program
- Mental health parity

Organizations can identify which of these services they provide and connect to cases they can help by following these easy steps:

Step 1: Register your organization:

mnpsychconsulthub.com

Step 2: Click on “Org Preferences” under your name

Step 3: Click on the tab “Ancillary Services Provided” and customize your profile. You will receive an email notification when there is a match for your services and you begin collaborating!
